

geoliner® 650

Welcome into the 3D Wheel Aligner world

Welcome into the 3D aligner world:

The geoliner 650 is the first step in Snap-on Equipment 3D technology portfolio.

Based onto the powerful ULTRA camera technology, V3D Lite offers the 3D technology at a best convenient price. All the most important vehicles angles can be measured in a fast and easy way just by following the guided software procedure.

Easy-to-use also for those who are not familiar with 3D technology:

1. Attach clamp to the wheels
2. Roll the vehicle back and forth
3. Get the readings

The innovative space-saving design allows use even in small garages and workshops, the compact ergonomic control terminal is either fitted on the camera lift, or on a socket supplied with the aligner.

More advantages of the geoliner 650:

- Available with camera lift, short supports or tall supports
- Innovative design saves workshop space
- Self explanatory user guidance and the use of userfriendly symbols reduce input errors
- Vehicle database with more than 20.000 models over the past 25 years
