

Spring compressor

Efficient, professional and safe dismounting and mounting of McPherson "struts".

"Universal" swivel jaws that fit all springs. Only the spring holder needs to be replaced. Strong enough for most vans, 4WD, SUV, etc.

CSC

Long stroke of 330 mm.

Min. distance between jaws and spring holder down to just 40 mm.
Max. distance between jaws and spring holder up to 390 mm.

Suitable for conical springs.

Moveable arms for universal jaws ensure a precise and vertical pressure.

Ergonomically design and foot operated for "hands free" operation.
Air connection required.
8 to 13 bar (Max!).

Accessories

929050

Strut vice.

Safety guard that also ensures an ergonomic work position.

Standard

2 Spring holders (78 - 125 mm and 125 - 200 mm)
Spring holders positioned on the side of the press.
Positioned and in use in seconds.

See www.compac.dk for further information on the vehicles you are servicing.

Enough power to compress strong springs on vehicles like Ducato, Jumper and Boxer.

Mobile. Easily moved between workstations. Ready for use in a matter of seconds.
