

monty® 3300-20 2-speed

The efficient one –
now available with two speeds

monty® 3300-20 2-speed

This tyre changer comes with two speeds which can be preset depending on requirements.

The slow speed is ideally suited for accurate and attentive operation in critical phases such as bead breaking, whereas quick speed allows to save time in uncritical phases.

- The machines are equipped with a double acting bead breaker cylinder and an oversize bead breaker blade which prevent damage to tyre and rim.
- Alloy rims are handled particularly gently as the mounting head and the clamping jaws are provided with plastic protectors. The one-part mounting head can be adjusted vertically and horizontally in spaced-apart position relative to the rim.
- The pneumatic tilt-back post and the four ergonomic pedals stand for user-friendly operation.

- Accurate and quick operation is guaranteed owing to the self-centring four-jaw turntable controlled by two clamping cylinders and the exactly locked post.

The machine is also available in GP version.

The GP version is supplied with an external bead seating device.

Equipped with easymont pro and the plus kit the machine is available as monty 330-20 2-speed plus for handling of UHP and run-flat tyres, hence certified according to wdk requirements.

Technical data

Clamping range	inch	outer: 10 – 20 / inner: 12 – 22
Max. rim width	inch	3 – 12
Max. tyre width	inch	12
Max. wheel diameter	mm	1000
Bead breaking range	mm	40 – 340
Turntable speed	rpm	7 / 13
Compressed air supply	bar	8 – 12
Dimensions (W x D x H)	mm	1160 x 1700 x 1850
Weight	kg	220
Power supply	3 / PE AC 380 – 415 V / 50 / 60 Hz
