## PROFESSIONAL HEATING FOR PROFESSIONAL SHOPS

### SMART HEATING WITH PRECISION

The **H4PRO** offers preset configurations tailored to your service needs without giving up the manual control system.

Designed for precision, the **H4PRO** comes loaded with a number of specific programs dedicated to regular tasks.

From simple wheel bolts release to wheel alignment applications or customized OEM programs, easily select the job you need to work on, and **H4PRO** will automatically deliver the ideal set-up.

**ACCURATE**  
**AVOID OVERHEATING**  
**SAFE**

### H4PRO IS DESIGNED FOR YOUR BUSINESS

The **H4PRO** enables controlled heating, ensuring that the nearby parts are kept undiminished.

- Quickly loosen door sealings in your **collision body shop**.
- Easily release rusty bolts and nuts in your **service workshop**.

- Safer unfasten camber bolts and tire rods in your **tire or wheel alignment shop**.
- The OEM preset program ensures the correct heating is applied according to the manufacturer's specifications, bringing confidence to your **dealership shop**.

# INTELLIGENT AND INTUITIVE SOFTWARE

The **H4PRO** intuitive interface makes it simple to navigate through the 5-inch color display.

The **manual mode** offers five different power levels and a timer countdown to secure safe procedures with the personalized configuration.

The **program mode** offers preset heating configurations according to the service application, avoiding overheating and parts damage.

## WHEEL ALIGNMENT MODE

## WHEEL BOLTS MODE

## OEM MODE

# INCREASED ACCESSIBILITY

With the extended **two-hand control**, work faster with one hand on the trigger button and the other on the induction handle.

## UPGRADABLE

The **H4PRO** offers an optional **High Duty Cycle** cooler trolley for extended operation time, increasing the duty cycle up to 60 minutes.
